## Whole School News

On Friday 29th November we are taking part in Global Climate Change day and Bearn's will be operating in 'screen free' classrooms to show children how much energy we use with screens alone. This is a really important part of the children's education in environmental issues.

---

Although PE is mainly indoors this term there are some elements that will be held outdoors on occasion. Please ensure that your child has jogging bottoms/leggings in their PE bags.

---

We are looking at the homework that the children receive and would be interested in gathering your thoughts to help us make any necessary changes. The children in key stage two have filled in their own questionnaires too. The results will be published on the website in the next few weeks. Please return them by Monday.
